Cause and Effects in Catholic Education. Synopsis of talk sent to WCDSB by Jane Richard May 2023

As a former teacher it is a great privilege to be a part of passing on our great heritage of Catholic identity from generation to generation. The Catholic Faith is a wealth of knowledge and truism that provides endless opportunity to impart the Spirit of God's love to us all.

Government sponsored media supports secularism and Godlessness as their agenda that has a dumbing down spiritual effect on citizens along with a failure to recognize evil when they see it. The teaching of the Faith from the Catholic Church hierarchy started bending the rules in the last 60 years to appease this mentality and chose to remain silent regarding social issues. We might remember when most of the clergy talked about 'leaving it up to our own conscience'. It has influenced Catholic Education and the value of faith and religion has seriously deteriorated in Catholic schools and churches as a result.

It is important to understand the 'cause' of what is happening. The perpetrator's way into the schools was actually through the double-edged sword of public health. With all the good they do they have embraced the progressive, former Planned parenthood, now KW Shore, to champion the sexual revolution by introducing their sex-ed, contraception, and abortion mentality.

Consultants in the WCDSB were happy to accommodate the new found freedom known as the 'sexual revolution'. In conversations with them, they opined that students were having unprotected sex, so they needed the sex- health nurses in the schools saying the students wanted the nurses there.

The aggrandizing of the transgender issue is like indoctrination that demoralizes children and alienates them from their parents. Traditional Catholic teaching and the concept of Catholic moral values has been replaced by this ideology including CRT, in the name of equity, inclusion and diversity with the effect that prolife groups have been replaced by trans support clubs.

The best we can do for our children is to instill in them the presence of Christ so they can see His presence in others. Young boys and girls should be taught about role models of men and women of faith within the rich history of the Catholic Church and in the light of the Gospel to impart a sense of discipline and self-control.

The school Chapels, are underutilized and should be open to students who are seeking God's help and love especially before the Blessed Sacrament. School Libraries and Resource centres should be full with books containing Catholic traditional and biblical content. This formation in ethical judgement and character will serve them in all areas of education. There is only one Rabboni (teacher) who saves and helps us; Jesus the Christ, through the Holy Spirit. Is this not the whole point of Catholic Education? *

On Friday June 16/2023, I along with 4 other wonderful KW Right to Life Representatives, were blessed to attend the Speaking Life & Truth into our Culture Conference, held at the Beautiful Michelangelo Banquet Center in Hamilton.

The Conference was attended by people from many other ProLife Organizations, even an energetic youth group, which gives us hope,

that future generations will continue to fight for the Right to life for the Precious babies in the womb.

The evening started with a meet and greet, followed by a delicious roast beef/pasta dish/salad supper finished off with a decadent ice cream dessert! Following fellowship and supper, we were blessed to hear from the main speaker of the evening, Dr. William Lile, an Obstetrician/Gynecologist from Pensacola Florida. Dr. Lile, whom I had the pleasure of speaking with before his presentation, was an approachable, friendly, down to earth, passionate, intelligent man. Dr. Lile is a Christian who loves Jesus, is a compassionate doctor who genuinely cares about the women he takes care of and especially the precious unborn babies in their wombs. His presentation was informative, energetic, witty, passionate and Christ Centered! He spoke of doing amazing, revolutionary, surgeries on the unborn babies still in their mothers womb. Surgeries like Open Heart, Spina Bifida, and other life saving/life altering procedures. After his presentation, he answered a lot of questions, encouraged everyone to continue to pray and fight for the unborn babies right to life!

I would like to thank our hard working, amazing, KW Right to Life Association President Jane Richard for giving the 5 of us representatives the Honor and privilege to have been part of such a wonderful, enlightening and informative conference. —Brendan Kavanaugh
